

Our Beliefs

We believe in the power of "one".

We believe that one person can make a difference...
by taking what is available to them and using it to empower others.

We believe that everyone belongs in community.

Therefore...when an individual experiences issues within the community it is the communities responsibility to assist that individual in addressing them. That way everyone within the community is empowered.

It is from these simple ideals that Restored - Redeemed & Renewed was born.

R3 is a safe and sober transitional living program.

We are located at:
